FOR IMMEDIATE RELEASE

SOLID IT NETWORKS, INC. Honored as AMERICAS SERVICES PARTNER OF THE YEAR
at Extreme Networks Partner Conference

August 2022, Houston, TX – **SOLID IT NETWORKS, INC.** today announced that it was recognized as **AMERICAS SERVICES PARTNER OF THE YEAR** during Ignite, Extreme Networks' first combined global sales and partner conference.

Solid IT Networks is a Diamond Level, Double Master Extreme Networks partner. They provide sales, design, configuration, implementation, and project management services for Extreme Networks solutions including switching, wireless, cloud networking, and SD-Wan. Solid IT has successfully managed and coordinated many large-scale network expansion and upgrade projects for enterprise customers which include higher education, K-12, healthcare, and sports stadiums.

"Extreme's vibrant, dedicated partner community is one of the major factors contributing to our incredible momentum. As we continue to drive innovation and grow our product portfolio, we rely on our partners to take those solutions to end users and demonstrate how they can drive better outcomes for their businesses. We're lucky to work with so many amazing organizations and individuals, and we're excited to celebrate their achievements during Extreme Ignite," said Scott Peterson, Senior Vice President of Global Channels at Extreme Networks.

The Extreme Partner Program is centered around a shared vision of leveraging technology to enable positive change for customers and communities. Extreme delivers best-in-class solutions to partners and customers, enabling IT to better support business objectives while providing partners with the tools necessary to drive business growth. By combining new and existing capabilities and high-performance enterprise technology for management, security, analytics, UC, mobility and more, Extreme has built a proven channel-focused strategy of driving partner and company growth while strengthening go-to-market initiatives in new and existing verticals.

About Solid IT Networks
